How to use this document

Each client section records the assets present in the supplied ZIP. The grid preview is shown as a portfolio overview; the nine individual posts and highlight covers are included as contact sheets for quick review. Brand strategy PDFs remain separate source documents in the original asset pack. This document describes supplied concepts and does not claim that every design was published or that performance results were achieved.

Reusable workflow

01 — Brand discovery

Define the audience, offer, location, positioning and primary action.

02 — Profile setup

Set the profile image, display name, bio, CTA and link path.

03 — Highlights

Choose visitor questions and organize matching highlight covers and story content.

04 — Grid strategy

Plan nine posts as a balanced set of brand introduction, product/service value, trust and conversion content.

05 — Creative production

Create individual post assets, verify crop/readability, and preserve visual consistency.

06 — Final quality check

Review the grid as a whole, verify every file and dimension, and prepare a publishing order.

Asset integrity note: Client names and deliverables in this document are based on the supplied ZIP. Designs are presented as portfolio concepts unless publication evidence is separately available.
